

Ken-Ton Big Picture TGIF

One student at a time.

Spirit Weeks

Big Picture will be celebrating our school spirit over the next two weeks on Mondays, Wednesdays and Fridays with a number of dress up days. The students voted on which days they would like from a list of over 15 ideas. Some of the top vote winners were Twin Day, Class Color Day, Cartoon Day, Decades Day and more!

401 student Zia Bouthillier proposed the idea to have some school spirit days this year. After getting approval to coordinate the spirit days, Zia went to each student and got their input on which days they want most. We are excited to show our spirit starting October 16th!

Internships and Shadow Days

Students get involved in the process

More and more Big Picture students are getting out into the community on Tuesdays and Thursdays as part of our Learning Through Internships portion of the program. Students in each grade level seek out an internship with the help of our Internship Coordinators Chris Watson and Stacey Pritchard. Students are advised to find an internship that aligns with their interests and passions. We have students participating in internships with photography, education, auto mechanics, veterinarian science, motorcycle mechanics, baking, health care, cosmetology, art, marketing, technology, and more!

The most amazing part of the process is that students must make contact with a local business to set up a shadow day that can lead to an internship. Students work on writing a script with their advisers and then call and email business owners to set up a shadow day. The students take great pride and ownership of their work because they take the risks by making the contact and earn the rewards by learning from a local business about one of their passions.
