Pick Me Up

Halloween Themed Pick Me Up This Week

It's that time of year when everything is a little darker. Halloween is just days away and the Big Picture Program is reveling in the season. This week the Pick Me Up activities were all Halloween Themed games that had each Advisory competing against each other. The Minute-to-Win-It style games were high energy, competitive games including Heads Will Roll (pumpkin bowling), Frankenstein Hands (apple stacking) and more.

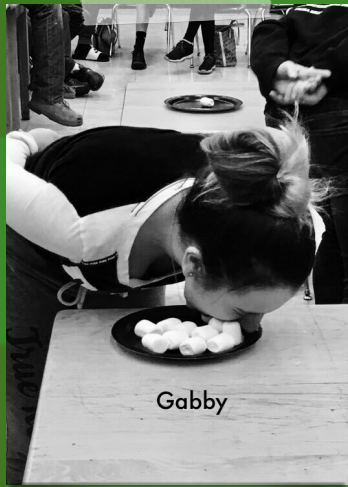

Ms. Pritchard, 201 Advisor, coordinated all of the games this week. The games were not only fun to play but also great team building exercises. Some games were done with partners and some were individual but all were done by Advisory. This means that each Advisory was rooting for their team to do their best! The purpose of Pick Me Up activities gives Big Picture students a chance to connect with peers and adults from other Advisories in ways that would not have in a traditional setting. The positive environment of Pick Me Up activities sets the tone for the day. The students enjoy the activities and find the time developing positive relationships with others a great way to start the day!

Big Picture Participates in Character Council Conference

Five Big Picture students accompanied Mr. Chimera and Mrs. Blenk to the Be Your Best Self: Developing Your Character Within Conference this week. Students engaged in table activities, whole group activities and networking. The lessons learned at the conference will be brought back to Big Picture to be shared with the other students. Sabrina, Drake, Jordan, Ian and Katia (pictured above with Molly Kennedy) represented Big Picture well!
