

Ken-Ton Big Picture TGIF

One student at a time.

Senior Spotlight

Anthony Anderson

Anthony attends both Big Picture and BOCES where he studies Early Childhood Development. He has been working on his Senior Project collecting new and used clothes along with bedding for homeless shelters. Anthony also works after school and helps his family as much as possible.

After high school Anthony will be attending Erie Community College for Early Childhood Education.

Exhibition Fair 2018

Students present their projects to the public

Each year the Big Picture Program holds an Exhibition Fair where every student in the program displays artifacts from and presents one of their Independent Projects for the general public. Parents, siblings former teachers, administrators and mentors are all invited to the Exhibition Fair.

The students presented on a host of topics ranging from Archie comics to pit bulls to popular music artists and more! Each project required evidence of research into empirical, quantitative and social reasoning on the topic. Students work on their communication skills through their writing for their display boards and their oral presentation to visitors. 53 students presented their projects to over 150 visitors the evening of the Exhibition Fair!

Special thanks to all of the parents, grandparents, guardians and siblings for supporting our Big Picture students. Family support and commitment is crucial for student success. Thanks to all of the district administrators and mentors that came, as well. We truly appreciate all of your support!
